## The Show

Firstly, we draw our audience's attention to some latest well-known songs. Secondly, the rhythm becomes more lively and the audience is increasingly involved in danceable songs that are arranged in various mix, depending on the period, the artists and the musical genre. During the show, the rhythm becomes gradually more engaging: we play acoustic songs and the audience actively participates in singing with us.

## Personalized set design

Every show is characterized by a themed scenography that is set up by the staff of *Tributo Italiano*. It contributes to give an even more professional and dynamic aspect to the stage.

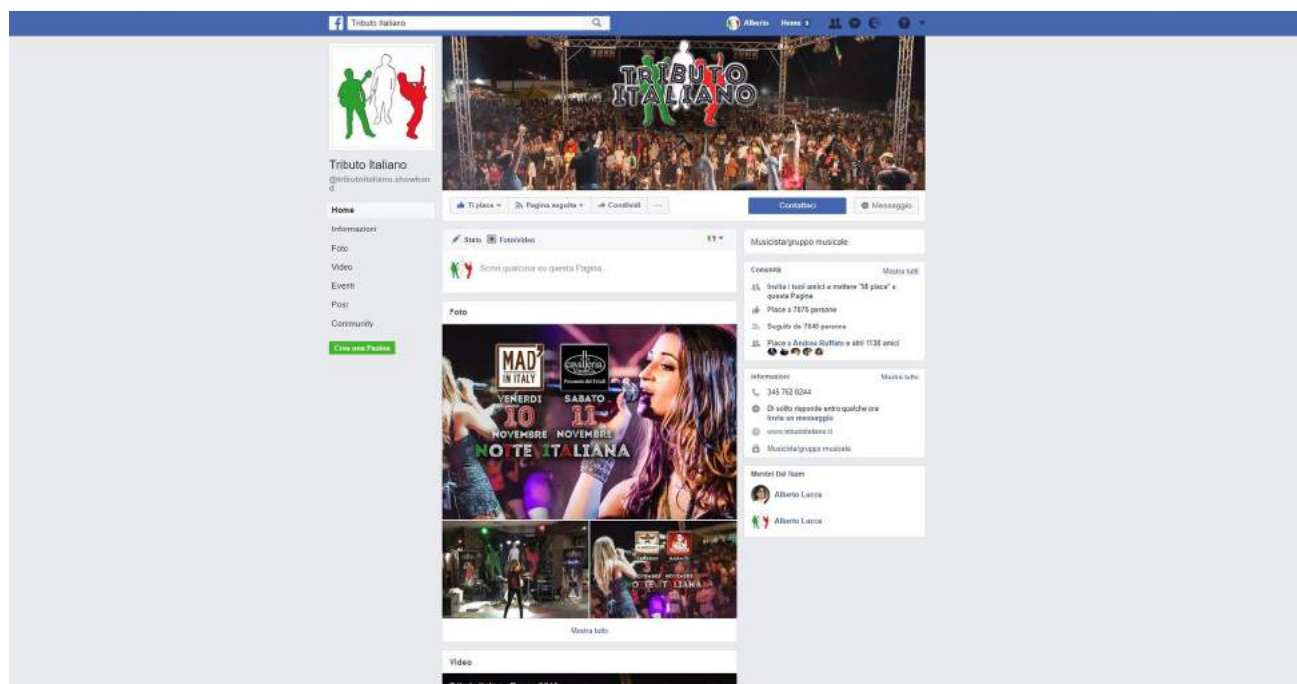

## Show running time

The representation lasts about 1 hour and 50 minutes. Nevertheless our repertoire is so wide that we manage every single show at the best: we easily adapt to every situation and every kind of audience and last but not least, we avoid presenting the same or similar schedule in the event that we have two or more close dates.
